

THE FOCAL POINT

SEEING IS BELIEVING BEFORE & AFTER CASES SAY IT ALL

When it comes to one's smile, seeing is believing. At Amsterdam Dental Group, we highlight a number of our cases within the Before & After Gallery on our web site, sharing a brief easy-to-understand case overview and solution. Here's a sampling of what you will find:

Case in Brief: Sal had a sports-related accident resulting in an upper front tooth being broken off below the gum line. The fractured tooth was non-restorable and needed to be extracted.

The Solution: Using the latest technology and MIDI technique, the Amsterdam Dental Group developed a meticulous step-by-step, case specific treatment plan including an implant with temporary fixed tooth that same day.

In the end, we prefer to let our patients and their results speak for themselves.

THE NEWS

Dr. Cross Checks in from DVAO 2016 Annual Meeting

So, you may be asking ... "What (or who) is DVAO?" It's the Delaware Valley Academy of Osseointegration – an organization committed to the rapidly emerging discipline of Implant Dentistry. The group represents a combination of periodontists, oral surgeons, prosthodontists, general dentists, residents and graduate students learning from each other in an open, collegial environment.

At the forefront of this year's scientific session was the biological management of soft tissues around dental implants and its potential impact on the long-term success of dental implants – a topic I find of interest. Dr. Tomas Linkivicius, a prosthodontist and pioneer in the field from the Institute of Odontology at Vilnius University in Lithuania, discussed his work on vertical tissue augmentation and the implications for marginal bone maintenance.

THE SPOTLIGHT

ADG Cares - Supporting Living Beyond Breast Cancer

Amsterdam Dental Group is proud to support Living Beyond Breast Cancer and its 25th Anniversary Butterfly Ball. On Saturday November 12th, the practice joined countless others at the former Strawbridge Building in Center City Philadelphia to celebrate 25 years of connecting people with trusted breast cancer information and a community of support.

Founded in 1991 by a small group of women right here in Philadelphia, Living Beyond Breast Cancer set out to create a world where no one impacted by breast cancer feels uninformed or alone. According to LBBC, today this vision connects more than 500,000 people a year.

LBBC is just one of many community and national organizations ADG Cares supports. Says Dr. Baumgarten, "At this time of giving thanks and throughout the year, we take pride in honoring those who truly make a difference in the lives of others."
